

VACANCY ANNOUNCEMENT

The Department of Health has a career opportunity for qualified candidates for the following position:

Title Research Scientist 2 [Classified Non-Competitive]			Salary P28 \$78,283.00 - \$111,555.82
Posting Number 301-22	Position Number 654409	Number of Positions 1	Posting Period * From: 03/24/2022 To: 04/07/2022
Location: Division of Epidemiology, Environmental and Occupational Health Communicable Disease Service (CDS) 135 E. State Street, 2nd Floor Trenton, NJ 08625			Scope of Eligibility/Open to: Applicants who Meet the Requirements
GENERAL DESCRIPTION			
<p>Under the direction of a supervisory official within the Communicable Disease Service (CDS), this position will serve as the Respiratory Illness Surveillance Specialist, overseeing surveillance, research and public health response activities associated with Influenza and Respiratory illness pathogens. Serves as the back up for emerging viral respiratory pathogens including novel influenza, MERS and COVID-19. Responsible for planning and implementing epidemiologic investigations related to respiratory illness surveillance, and monitor epidemiologic and clinical data collected from cases to identify changes in clinical presentation, illness severity and/or populations/groups at risk. Works closely with various groups within the Communicable Disease Service (CDS) to identify and research metrics, to track the incidence and prevalence of respiratory illnesses in various settings throughout the state including long-term care facilities, schools, and other settings. Activities would include; developing data collection tools, designing surveys, analyzing and summarizing data for inclusion in reports and reviewing data submissions to the Centers for Disease Control and Prevention (CDC). Provides consultation and technical assistance to local health departments, regional epidemiologists, surveillance partners and help develop, plan and conduct statewide surveillance activities for influenza and respiratory illnesses in New Jersey. In addition to providing after hours coverage to address inquiries from hospitals, providers and local health departments. Assists in preparing technical manuscripts for publication, surveillance reports for public health partners, reports for including in grants and presentations for internal and external stakeholders. Develops resource tools to assist in researching transmission risk and trends of influenza and respiratory illnesses and use the information gained to develop guidance documents with effective control measures. Develops training materials for disseminating research findings and other relevant information to public health stakeholders, healthcare professionals and the general public.</p>			
REQUIREMENTS (EDUCATION / EXPERIENCE / LICENSES)			
<p>EDUCATION: Graduation from an accredited college or university with a Master's degree in a discipline appropriate to the position.</p> <p>EXPERIENCE: Three (3) years of full-time experience in a field appropriate to the position.</p> <p>NOTE: A Doctorate in a discipline appropriate to the position may be substituted for two (2) years of experience indicated above.</p> <p>LICENSE: Appointees will be required to possess a valid driver's license valid in New Jersey only if the operation of a vehicle, rather than employee mobility, is necessary to perform the essentials duties of the position.</p>
